I am opposed to the the rate hike.

The water company has been awarded rate increases in the past and they should have been allocating adequate funding to properly maintain the system while providing the means to maintain a "reasonable" rate structure. In addition, many of the residents are on a fixed income and the proposed increase is exorbitant and they cannot afford such an increase as proposed. I am a school teacher and in the last 5 years have only just received a pay increase of 3%. To increase my water by 14% far exceeds my pay increase the community members have received.

In addition, the water quality does not justify the rate increase. There seems to be many instances that we have to boil our water. Again

Concise Statement of Facts/Complaint: * (This section must be completed. Attach additional information to this page if necessary.)

In September of 2011 a 2" water main ruptured in my neighbors yard and water ran for 8 hours through our yard/house. Water filled our crawl space, submerged thousands of dollars worth of tools and halted construction on our home. It also, submerged our direct vent water heater and washed our backyard away. I watched while 3 men (one of which was sleeping in the grass) waited for parts to arrive to fix the spewing water. My husband and I used their contractor (despite my husband is a contractor) to finish the work. We cooperated in every way to fix the problems as quickly and efficiently as possible. We ran power from our 220 outlet to run dehumidifiers for over a week, moved our belongings into storage pods and requested to have the landscaping expense reimbursed to us to avoid further damage to existing grassy areas. Needless to say, we have not been fully compensated for the damages and no one will return our phone calls.

I have read the water quality reports and have received letters regarding possible lead contamination.

I have heard of possible dumping in the lake and coupled with our experience regarding the water main break, I am more than upset about the proposed rate hike. I would like to voice our concerns to you in hopes it would be forwarded to those voting on the rate increase. I would reference an entire advisory committee has formed logging their missteps as there have been so many.
